

Third-Party Software and Services

PerFin OS incorporates third-party open-source software and cloud services. We gratefully acknowledge the developers and organizations whose work makes PerFin OS possible.

Open Source Software

PerFin OS uses, among others, the following open-source projects:

Frameworks & UI

- React
- React DOM
- React Native
- Expo
- Expo Vector Icons
- React Navigation
- React Native Gesture Handler
- React Native Safe Area Context
- React Native Screens
- React Native Maps
- React Native Web

Device Features

- Expo Location
- Expo Image Picker
- Expo Font
- Expo Splash Screen
- Expo Status Bar
- Expo System UI
- React Native Community DateTimePicker
- React Native AsyncStorage

Backend & Cloud

- Firebase JavaScript SDK
- Cloudflare Workers
- Wrangler
- JOSE

Development Tools

- TypeScript
- Vitest

Third-Party Services

PerFin OS relies on third-party services to provide functionality, including but not limited to:

- Firebase Authentication
- Cloud Firestore
- Cloudflare Workers
- Google Maps Platform (through React Native Maps where applicable)
- Artificial Intelligence providers (where AI-assisted features are used)

These services are governed by their own Terms of Service and Privacy Policies.

Licenses

The above software is distributed under a variety of open-source licenses, including the MIT License, Apache License 2.0, BSD licenses, ISC License, and other permissive licenses.

Each library remains the property of its respective copyright holder and is used in accordance with its applicable license.

Copies of applicable licenses are available from the respective project repositories.

Trademarks

All trademarks, service marks, logos, and product names referenced within PerFin OS are the property of their respective owners.

Their inclusion does not imply endorsement or affiliation unless expressly stated.
